Powerpoint will adjust some of the sizes in ways that you may not like Set up paper size.. Double-click on the the new custom size name to rename your custom size Define the height and width of the size to match that of your document.. Select the plotter that you intend on using from the printer margins: pull down.. Select the plotter that you want to use from the list of printers Both plotter A and Plotter B are loaded with satin finish paper that is 42 inches wide.. This means that one of the dimensions must be less than 41 5 inches PRINT Choose print from the file menu..) 5 Set up your custom size Click the + sign near the bottom left of the window to create a new custom size.. Choose your custom size Your custom size will now show up on the list of page sizes.. Only one step to get Page Setup dialog And don't need any trainings or tutorials when upgrading to Microsoft PowerPoint 2007, 2010, 2013. ae05505a44 [Tidy Plates And Elvui](#)
